

CORASOL

“The Ultimate
in Luxury Living
on the Riviera Maya”

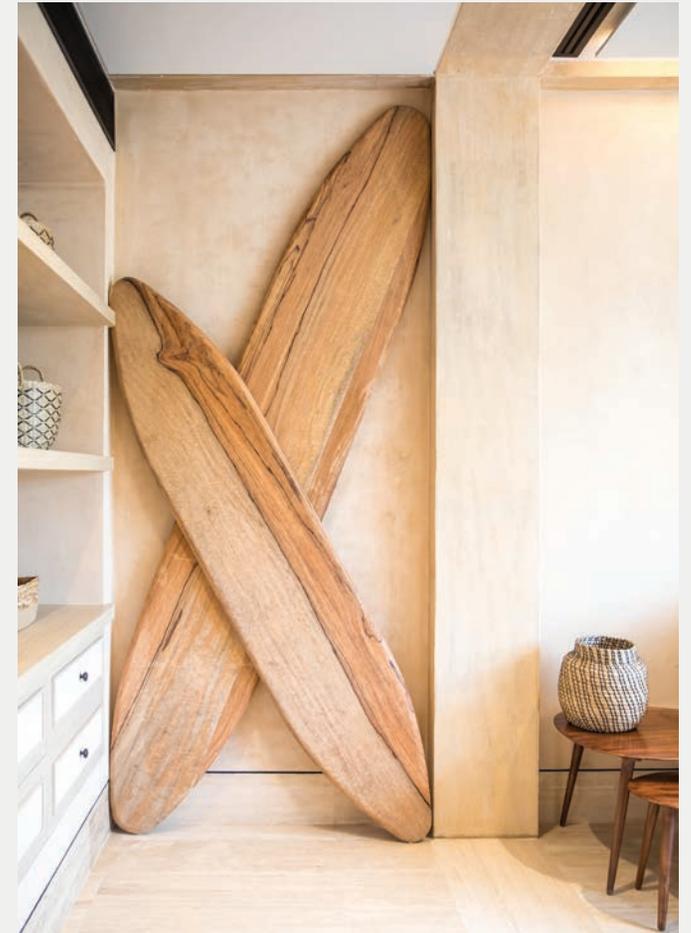

Introducing Corasol

RIVIERA MAYA

Claiming a prized, pristine stretch of the Riviera Maya coastline, Corasol represents a stunning new vision for exceptional resort living and legacy homeownership, all artfully sculpted into the landscape by Sordo Madaleno and CUAIK Arquitectos. Flawless white sand beaches, tranquil lagoons and a verdant valley of native jungle flora set the stage for this exceptionally private, gated residential resort community on the Caribbean Sea, featuring three architecturally distinct offerings: Costa Residences, The Village and Palm Villas.

At Corasol, a magical array of lifestyle amenities awaits, including Mexico's most anticipated shoreline destination, Costa Beach Club. Beyond the sea and sand, discover a dedicated Adventure Park complete with rock climbing, zip lines and sports courts, a Nick Price-designed golf course and a host of dining and wellness offerings—all are part of the Riviera Maya's most exclusive new residential resort community.

A Visionary Collaboration

SORDO MADALENO & CUAIK

Corasol represents the vision of one of Mexico's top developers, Origina, and two of the country's leading contemporary architectural firms: Sordo Madaleno and CUAIK. The trio have created an extraordinary community that represents the pinnacle of modern Mexican resort design.

Designing The Village and the Palm Villas, Sordo Madaleno brought their striking approach to Corasol's most communal and private offerings. While each share a similarly bold, angular architecture, both offer distinctive variations on indoor/outdoor living.

CUAIK Arquitectos took the challenge of designing one of the most amenity-rich offerings in Mexico and brought it to life in the form of Costa Beach Club. With everything from eclectic dining to world-class wellness, guests and residents can enjoy more than 18 different amenities.

Here, Life is (Art)

Inspired by Nature

The gentle waves of the Caribbean Sea splash against powdery white sand while palm trees soak in the morning sun.

When the jungle meets the sea and sand, the beauty that emerges is difficult to put into words. This is a landscape unlike any other, one where residents can unwind or explore and find all new adventures. This is a playground for all ages, where young and old can revel in nature's nourishing embrace.

Unmatched in privacy, serenity and style, these striking homes are designed to inspire total well-being with 900 square feet (84 square meters) of outdoor living space and a private swimming pool and hot tub.

While the process of building within the Palm Villas Estate Collection was designed to be entirely effortless — with two four- to five-bedroom floor plans available — the architectural brilliance of their cubic nature allows for a multitude of layout possibilities.
